Together with
Australian Barramundi Farmers Association

Invite a CALL FOR PAPERS

RIDLEY
AQUA FEED

AUSTRALIAN
**Prawn
Farmers**
ASSOCIATION

The 2011 Ridley Aqua-Feed Australian Prawn and Barramundi Conference will be held in Australia 3rd – 5th August 2011. We encourage you to come to Sydney, home of the Sydney Fish Market, attend the conference and discover all that Sydney has to offer.

Why not consider a post conference tour to Cairns to visit with two of our major farms and partake in the tourist attractions that only Cairns can offer such as a trip to the Great Barrier Reef or take a Skyrail tour over the tropical rainforest terrain or perhaps be mesmerised by a local crocodile farm.

The Conference and Trade Show will be held on August 3 - 4, with members-only meetings on Friday August, 5.

The combined Prawn and Barramundi industries contribute approximately \$100million to the Australian economy and are world class, sustainable farms. The Trade Exhibition provides your company with an opportunity for exposure to both the prawn and barramundi sectors – owners, farm managers, hatchery managers, farm employees, researchers and government agencies. This year's Trade Exhibition will provide up to 15 trade booths.

The Dockside Conference Centre is close to Sydney's CBD, the Sydney Fish Market and the wonderful Darling Harbour. Why not do the Sydney Harbour Bridge Climb just one of the many tourist activities on offer.

As always there is a heavy focus on current or emerging global research and technology that could benefit farms, enhance farm performance, sustainability, environmental credentials, production and ultimately encourage and guide enterprises to remain profitable. The conference will provide an opportunity for presentation of new work and results to an influential and informed audience.

This will be the ninth Prawn and Barramundi conference. It appeals to a very wide range of aquaculture industry interests. It is attended by producers and company executives, farm managers, retailers and wholesalers, animal health professionals, transport and infrastructure providers, public policy analysts and especially researchers. In recent years there has also been a focus on the gourmet food sector.

THE DRAFT PROGRAM CAN BE FOUND

enquiries to – info@apfa.com.au

Or please phone 07 3626 9015 or 0417 006 639.

Call for Papers

The conference program committee calls for papers from interested parties seeking to deliver up to date research and information in the following aquaculture industry themes:

Breeding and genetics	Juvenile production
Growout	Processing
Marketing	Workforce training
Governance and Management	Research Frontiers
Environment	Climate Change
Energy Efficiency	Biodiversity
Transport and Logistics	World Food Trends

Duration of each presentation to be strictly 20 minutes including 5 minutes for question time.

Submitting authors are required to include a brief biography highlighting professional experience, in no more than one paragraph.

The conference committee will evaluate full papers, or if summary is presented may request more detailed information.

Please note that presenters must be registered conference delegates and pay the appropriate registration fee.
