Dear Madam,

I am writing to ask if it would be possible to spend a four month work placement training period in your company between Jun and October 2012.

I am a 19 year old French female agricultural engineering and management university student at l'Institut Supérieur d'Agriculture de Beauvais. I am currently in the second year of a 5 year university course leading to an MSc Engineering degree in Agriculture and Management.

As an integral and compulsory part of my course, I have to do a 4 month training period in an English speaking country. The objectives of this training period are to learn about agricultural and environment systems and techniques in another country, to experience the life style and culture abroad, to broaden my work experience and to perfect my English.

Reliable, lively and enthusiastic, I have ability to manage relationships with tact and diplomacy. I am currently looking for opportunities and I am curious about new environments.

I have a general interest in the fish farming and the marine world in general. I am very keen to learn new techniques. Working in your company would be a great opportunity for me to develop my knowledge and experience. Moreover, it could be an excellent way to extend my outlook on life.

I also enjoy travelling, I went in a lot of foreign country like Viet Nam or Cambodia were I learn a lot about new cultures.

Please find attached my CV
Thank you very much for considering my request
I look forward to hearing from you

Yours sincerely

COMINASSI Louise
